

## Athlete Runs In Boston Marathon for Stirring Waters

Molly McGill Hardman is a special education teacher in Lake Wales and a member of the **Stirring** Waters Board. She is an elite athlete who swam for the University of Florida and is now a long distance runner. She will be running with the elite runners in the Boston Marathon and wants to dedicate her efforts to benefit children with disabilities through **Stirring** Waters.

We are inviting you to join us in encouraging her. We have a special **BUILDFRIENDSHIP.COM** flag with 1000 spaces for signing. If we fill it up we will simply add another flag. We are sending it to Boston with her to drape over her shoulders at an appropriate time that is allowed by security. We hope the media takes notice of her Friendship Flag. She is hoping to get herself photographed with some of the other elite runners to post on Facebook.

You can have your name placed in one space on the 3' x 5' flag for a \$5 token donation to **Stirring** Waters. Many of us are donating \$20-\$100 so we can also write her an encouraging message along with our name. One company has donated \$100 and asked us to put their logo on the flag using an iron-on transfer. All the funds raised from the Friendship Flag will go to **Stirring** Waters.

If this is something you would like to get involved in, here is the donation link. If you want a message on the flag, there is a space at the bottom of the form where you can express that message. Your donation is tax deductible. <https://app.etapestry.com/onlineforms/RemovingtheBarriersInitiative/donate-1.html>
