

The American Legion Unit 71 Auxiliary is hosting a Back Pack Drive.

We have adopted a local school after researching which in Lake Wales has the largest percentage of students in need.

We would like to start early preparing for the return of students in August and will be collecting Backpacks for students who cannot afford one. We would love as many as we can get!

The Back Pack is often the most expensive item on the Back to School list, and many students return with grocery bags holding their stuff.

There will be a carton near the front entrance to receive donated Back Packs, and thank you all for your participation! Hoping together we can fill that carton!
