### **BEISNER NAMED EMPLOYEE OF MONTH**

**Lake Wales, FL** – Ron Beisner from Bio-Med was named employee of the month for March at Lake Wales Medical Center.

“Ron is constantly doing rounds throughout the hospital, calling in any safety- or patient-related issues,” a co-worker wrote in nominating him. “He is quick to respond to bed alarms if he is near, and he ensures the nursing staff responds to the patient’s needs. He communicates clearly with management any needs for the crucial telemetry system, and he works diligently to resolve any issues. He is committed to ensuring quality care for our patients.”

Ron has worked at the hospital since March 2012.
