

Our office has had great success with the development and production of our small business guides, which have been distributed to all of our community partners for circulation. For the time being however we will not have additional guides produced. The information will still be [available online](#) along with additional business assistance resources.

For your convenience, I have included the production information below should you elect to have the guide printed for circulation within your specific community. Should you have any questions or concerns, please feel to contact me.
