Subject: Looking for local input on small biz issues

Hey Kevin - we are conducting our quarterly survey of small businesses across the state about their top issues and was hoping if you could share this with your members? Would love to have input from your community and I can filter your members out once the survey closes, if you are interested in that data.

We saw an outstanding amount of responses thanks to local chamber efforts last quarter so any assistance is appreciated!

All the best,

Joshua Gabel
