

October 12th 10a–2p at Lowe's of Lake Wales

Fire

Safety Day

Meet and Greet some of our local Heroes!

In the U.S., a fire occurs every 24 seconds, and with 72 percent of fires occurring at home, Lowe's seeks to boost community awareness to better serve customers and keep them safe

Lowe's and its partners will conduct a Lowe's Fire Safety Campaign to assist local fire departments and other emergency service providers in educating the public.

Lowe's will host a Build and Grow Kids Clinic sponsored by First Alert in all stores. The clinic will allow children and parents to build model fire trucks.

Since most fire-related deaths are due to smoke inhalation, customers will watch an instructor-led How-To Clinic about where and how to install a smoke detector and how to test it.
