

## Monthly Class Listing

Many of these classes are repeat classes of the magnetic frames and calendars, only with different sets. I know you can't take all of them, so I scheduled them so that you could pick and choose. Many of these can be done on your own too once you get the hang of it... although not as much fun as doing them in class!! I'm not posting details yet, just a schedule because there is so much coming up!! There are also other classes mixed in and More to come!!!! Some of these frames were pictured in the latest newsletter. If you'd like to see pics of completed samples (ours may vary due to changes in papers) just let me know!

---
